

Nik Vaughn – Scenic Artist

Location: Essex, UK

Specialisms: Scenic painting, murals, textured finishes, environmental artwork

Experience: 30+ years

I am a UK-based scenic and commercial artist with over three decades of experience creating painted environments for **theatre, film, television, live events and immersive spaces**.

My work focuses on bringing constructed sets to life through **painted surfaces, texture, ageing, backdrops and visual detail**, always in service of narrative, atmosphere and audience impact. I am highly experienced working on-site, collaborating closely with **set builders, designers and production teams** to meet creative briefs within tight schedules.

I offer a practical, production-aware approach, combining artistic sensitivity with an understanding of the realities of build timelines, touring requirements and studio workflows.

What I offer:

- Scenic painting, prop making and detailed surface finishes
- Texturing, ageing and distressing techniques
- Painted backdrops and large-scale murals
- Reliable on-site collaboration and adaptability

My portfolio can be viewed at www.nik-vaughn.com, which includes examples of scenic work, murals and large-format environments.
